

BTEC L5 CERTIFICATE IN LASERS & LIGHT THERAPIES

£2800 + VAT

Course Overview

The BTEC L5 Certificate in Laser & Light Therapies provides a knowledge based route of learning for practitioners in the medical, beauty and aesthetic industries.

This qualification gives delegates the opportunity to:

- Develop an understanding of the features of lasers and light, hazards and controls of lasers and light such as legislation, controls and regulations and risk. Tissue interaction with lasers, light and electromagnetic radiation and correct principles and procedure for client consultation and for obtaining valid consent.
- Develop skills in communication, record keeping, interpreting specifications and use of equipment
- Learn about hair and tattoo removal, non-ablative and vascular treatments
- Develop their own personal growth and engagement in learning

Successful Outcomes

At the end of the course the delegates will feel confident in their knowledge and understanding of the following areas:

Day 1: Unit 1 (Laser and Light Sectors) & Unit 2 (Features of Lasers and Light)

Day 2: Unit 4 (Light, laser and EM interactions with tissue)

Day 3: Unit 3 (Hazards and controls of lasers and light) & Unit 5 (Consultation and Consent)

Day 4: Unit 6 (Principles of hair removal)

Day 5: Unit 7 (Non ablative water targeting)

Day 6: Unit 8 (Tattoo removal)

Day 7: Unit 9 (Vascular treatments)

Course Qualifications

Candidates will be rewarded with a BTEC Level 5 Certificate in Laser & Light following successful assessment through assignments, worksheets and activities/exercises and a work based project.

Candidates will have up to 3 months from completion of their theory days to complete their project.
